Jeremiah's Boiling Pot

Bro Andrew Johnson, 2025

JEREMIAH'S BOILING POT- EXAMPLE SHEET (7/7)

The Idea: Jeremiah the prophet sees a boiling pot tilting toward the North. What does this prophecy represent? Build the craft and find out!

You'll need a computer and a black and white printer to download and print the templates. Beyond that, we recommend:

- 1) 8.5x11 cardstock for printing.** This is a heavier, more durable material to craft with. It's recommended, but not necessary. All prototypes are created using standard printer paper to ensure that they'll work.
- 2) Scissors or Exact-o knife for cutting out templates.**
- 3) Tape or Glue**

4) Crayons, markers, or Colored Pencils. All templates are designed to be colored in by students. This isn't necessary, but might be preferred.

Any best practices suggested?

- A) For younger children especially, teachers may want to stick with the simplest version of a particular module (for example, stick with a basic boat, and skip the mast and sails) to allow for time to color.
- B) For younger children especially, consider cutting out the papercraft modules ahead of time for safety and for the sake of time.
- C) Consider putting a craft together the night before to time things out, and to ensure you know how to assemble the craft yourself.
- D) Let us know if there are any ideas you might have for future craft modules! Send in pictures of crafts you or your students have made!
- E) Have fun... but mostly we hope these crafting ideas will help build interest and discussion around the Bible!
